

ICOOL

ICOOL--- First Rate Air Cooling system

www.trutechnology.com.pk

Introduction of ICOOL

1

1

ICOOL is a first rate air cooling system developed for Pre, post and During the laser treatment without interfering the laser beam emission.

2

ICOOL is designed for reducing pains, redness, swelling and thermal damages caused by laser treatment, Intense Light (IPL) treatment and Radio frequency (RF) treatment .

ICOOL Makes the best performances, pre, post and during the laser treatments of the following treatments:

- 1 Laser hair removal by diode laser, IPL, Long pulse Nd:yag laser or alexandrite laser.
- 2 Radio frequency High frequency skin rejuvenation treatments.
- 3 Temporary anesthesia before injections
- 4 Feature of ICOOL system
- 5 Powerful cooling air temperature (-20C)

- ⑥ High power compressor makes the system work for long time continuously
(Lowest temperature can keep 2 hours under 4 level fan speed)
- ⑦ High speed fans makes air emitting strong for better cooling result, 6 degree cooling fan speeds for various treatment.
- ⑧ Self defrosting system for best cooling performance
- ⑨ Self water drainage system make safe and cleaning performance
- ⑩ Fuse supporter make the procedure comfortable

Specifications

Laser source: ICOOL air cooling system

Controlling screen:	5 inch multi color touch screen
Power:	1000W
Temperature range:	-4°C~20°C(adjustable)
Fan speed:	1~6 (adjustable)
Defrosting time:	15s
Power requirement:	110V,50hz,3A, 220V,50hz, 3A
Net weight:	62kg
Treatment Fuse:	2 meters
Fuse supporter:	3 joint supporter
Dimension of system:	810*400*845mm
Package size:	915*515*1050mm
